Are you are interested in PISTOL shooting? Firearms are only fun when used safely. And they can be a lot of fun!!

No one “can’t shoot.” Everyone can shoot well. Everyone can have fun. There is no magic age, size, build, muscle, eye, sex, etc. You just need a willingness to try, and a positive attitude. I have trained a 76 year old grandmother to shoot!

Firearms are very, very safe- But used improperly firearms can be dangerous. We practice Having Fun Safely, and learning the correct Skills we can use forever. *This includes marksmanship!*

Dec 8th A one-day NRA Basic Pistol Course will be offered

CLASS SIZES ARE LIMITED to provide a quality teaching environment.

- Relaxed, small class setting on a private range- no distractions or interference.
- Shooting house is enclosed and heated for comfort!
- Women are welcome and encouraged to attend; ladies 15-76 are excellent shooters.
- Strong hands-on emphasis & firearms practice- expect to shoot over 100 rounds
- A collection of firearms, ammunition, and targets will be provided.
- Evaluate different handguns, ammunition, and calibers.
- Handbooks, Handouts, and Certificate of Completion are included.
- Purchase, Storage, Use, Marksmanship, Cleaning, Transport, Laws, etc. are covered.
- If you have your own pistol- you can learn or practice with your personal firearm.
- Time permitting; a Video Disk of your shooting will be made for you.
- Safety glasses and ear protection are provided and must be worn when shooting.
- Class meets MD Handgun Safety Class requirements for Handgun Purchase.
- Meets class requirements for obtaining a concealed firearms license in many states.
- Hot Lunch, Drinks, and Snacks will be supplied.
- Pre-Registration is required, no “Drop-In” participants accepted.
