

Greetings Cub Scout,

I have some amazing news from Cub World at Camp William B. Snyder to share with you!!!

Recently, after many failed attempts, I have discovered a secret series of commands that creates a formula needed to power up my invention the Webeloscapacitor. The Webeloscapacitor is the unique mechanism that enables our ship the BALOORIAN to travel through time. I've already made my way into the future and discovered what Cub World will be like in the year 2108.

Accompanying me on my travels, is a local Cub Scout Pack that lives near Cub World. One of these Cub Scouts, Marty "Cubby" McTiger, can be very resourceful and clever and is always brave when faced with danger!!! However, his only major flaw is that he is persistently curious about both his personal past and future, which often times causes him to take unnecessary risks.

Because of these unnecessary risks, I now find myself in a most unusual time warp disaster of monumental potential consequences that could prove most disastrous for Cub World and Camp William B. Snyder! I need your help! Enclosed you will find a secret Travels in Time decoder that requires your assembly along with a secret message from me on what to do next! Please attend to this task quickly. We don't have much time left!

Along the way, I wish you all the best, and look forward to seeing you at Cub World in the very near past, present or…future!!!

Doc Bobcat

To Solve, Set the decoder to Q 19

9 17 22 17 25 25 25 4 17 1 21 5 17 23 22 21 16 5 3 5 17 20 9

5 23 4 25 17 20 14 6 21 7 5 20 7 22 15 7 21 21 3 9 7 21

Travels in Time Decoder Assembly Instructions

- Cut along the edge of the circled dial spheres and then place the gray Travels in Time dial on top of the blue and yellow Alphabet dial
- You will need to punch a hole in the middle of each dial, where the X is marked and affix the dials together with the Brass Split Pin.

How to use the Travels in Time Decoder

- Turn the Travels in Time Arrow to line up with the Secret Code Key Letter provided, and hold the dial in place.
- The Secret Code Key Letter will change with every message sent
- Once the Secret Code Key Letter and Numerals are matched up with the Alphabet, you can begin to decipher the message.
- Example: If Secret Code Key Letter is Z-26 and the Code is

3 21 2 23 15 18 12 4

then the secret message would be CUB WORLD.
